GOING GLOBAL

Where your global health journey begins.

THET
PARTNERSHIPS FOR GLOBAL HEALTH

NHS
Health Education England

Digital housekeeping

A few key things to keep in mind during the session:

- This is a safe space where everyone should feel comfortable to share their ideas and experiences.
- If you wish to input you can either raise your hand, put your question in the Q&A section, or post in the chat.
- The session will be recorded.
- The slides and session recording will be made available.

Welcome to Going Global!

Ciaran Barbour

Digital Engagement Officer, THET

DATA COLLECTION SCENARIO

Launching a private forum/group

- Is this platform accessible or used in the region?
- Are you asking the appropriate questions?
- Are you inline with the countries data protection regulations?

Implementing a new Learning Management System

- Do all users have internet access?
- Do users have the technical skills to navigate these tools? Vs typical learning methods
- Does this clash/integrate with current learning tools?

USER ACCESS & COUNTRY INFRASTRUCTURE

- **Policy and regulation**
  - Myanmar blackout
  - Data protection
- **Internet access**
  - Low bandwidth
  - Restricted access – pre-paid devices
- **Gender**
  - Digital divide with mobile access
